Thanks & about self-care

Thank you for taking the time to read this guide.

‘Self-care is a conscious act people take to promote their physical, mental, spiritual, and emotional health. It is vital for building resilience towards life's stressors that we can't eliminate.

‘Whether you talk to a partner or close friend about how you feel, or you set aside time for leisure activities that help you process your emotions, it's important to incorporate emotional self-care into your life.’
